Sub: Extension of approval to MAHARAJA SURAJMAL INSTITUTE, C-4, JANAKPURI, NEW DELHI-110 058 for the year 2005-06-reg.

Sir/Madam,

As you are aware, All India Council for Technical Education has been mandated under the AICTE Act, 1987 to ensure maintenance of norms and standards with regard to technical education in the country. In exercise of this mandate, the Council insists on fulfillment of the minimum requirements prescribed for imparting technical education by the institution so that quality of courses is not compromised and stakeholders are satisfied. The Council also undertakes an annual inspection of the institutions and conveys deficiencies to them for rectification.

It has been observed however that notwithstanding the Council's repeated advice to comply with minimum norms and standards, many institutions continue to be complacent about taking steps to remedy the deficiencies.

Such institutions suffer from critical deficiencies of faculty in proper cadre ratio, qualification, experience and other requirements. Feed back of students with regard to quality of education imparted by such institutions has evoked grave concern. The Expert Committees, following holistic appraisal during inspections, have also pointed out severe shortcomings.

The institution has been found to be suffering from several deficiencies, which are listed in Annexure-A for your perusal. Shortage of faculty is of gravest concern.

The deficiencies in respect of faculty (including proper cadre ratio & qualification etc.) could have rendered your institution liable for punitive action including being placed in no admission/ reduced intake category. However the Council has decided to take a lenient view and give you yet another last opportunity to rectify the deficiencies particularly with regard to faculty shortage, proper cadre ratio & requisite qualification. Course-wise approved intake in respect of MAHARAJA SURAJMAL INSTITUTE,, C-4, JANAKPURI, NEW DELHI- 110 058 , your institution for the year 2005-06 is as under :-

| COURSE (S) | APPROVED INTAKE 2004-05 | APPROVED INTAKE 2005-06 |
|---|---|---|
| [illegible] | 60 | 60 |
| [illegible] | [illegible] | [illegible] |
| [illegible] | 60 | 60 |
| TOTAL | 180 | 180 |

NOTE: Additional intake/new courses/PIO quota will be considered only after deficiencies in respect of running existing courses are fully

## 6.1 ADMISSION OF DIPLOMA HOLDERS INTO SECOND YEAR DEGREE ENGINEERING PROGRAMES THROUGH LATERAL ENTRY

6.1. (a) Admission of Diploma Holders

Although engineering diploma programmes are conceived as terminal in nature, some flexibility has to be built in to enable the meritorious amongst diploma holders to obtain Engineering degrees. There is evidence of diploma holders pursing an Engineering programme having performed well not only in their academic careers but also in their jobs.

6.1 (b) Eligibility

For being eligible to seek lateral entry to an Engineering degree programme at the second year / third semester level, a candidate must have passed the diploma in Engineering in the relevant branch with a minimum of 60 percent in the aggregate. Only candidates fulfilling these conditions would be eligible for appearing in the entrance test meant for selection of diploma holders for Lateral entry to degree programmes. The selection of candidates will be based on an entrance test, the merit ranking in the test being the basis of admission.

At present students obtain diploma through different programmes in different States/UTs. Such programmes have different structures and forms like the semester pattern, annual pattern, sandwich pattern, etc. In order to maintain uniformity, a common entrance examination seems essential. Further, it is necessary to select only meritorious students who have passed the diploma with good academic record.

A student who has acquired a diploma in Engineering through a minimum of three years of institutional study, after 10+(Secondary School Leaving Certificate Examination) can be considered to be academically equivalent to a student who has passed the first year of the four year Engineering degree programme for which the qualifying examination is of the 12+ level.

The Affiliating University may prescribe compensatory courses to make up deficiencies for diploma holders, who are admitted through lateral entry.

6.2(a) Admission of B. Sc,. Graduates

Science education in the country is suffered primarily due to lack of employment opportunities after completion of degree courses. This trend is affected the science education in the country and only a few students are opting to go for the science stream. In order to provide science

students avenues for proper employment opportunities after completing graduation, Science graduates may be permitted to join Engineering courses at second year along with the diploma holders through lateral entry.

6.2 (b) Eligibility:

For being eligible to seek lateral entry to an Engineering degree programme at the second year/ third semester level, a candidate must have passed the Degree in Science (B.Sc.,), with Mathematics as a subject and with a minimum of 60 percent marks in the aggregate. Only candidates fulfilling these conditions would be eligible for appearing in the entrance test meant for selection of B.Sc., graduates for Lateral entry to an Engineering degree programme. The selection of candidates will be based on an entrance test, the merit ranking in the test being the basis of admission.

The affiliating University may exempt B.Sc., degree holders form Science courses and other relevant courses at the second year level and prescribe compensatory courses to makeup deficiencies.

(7) Extent of Lateral Entry

Diploma holders and B.Sc Degree holders shall be eligible for admission to second year Engineering degree programmes up to a maximum of 10% of sanctioned intake, which will be over and above the approved intake (supernumerary). In addition, these candidates shall be eligible for admission in the second year against the vacant seats at first year level. The concerned Admission Authority shall decide the ratio between the diploma holders and B.Sc graduates for admission.

(8) Interpretation

If any question arises as to the interpretation of these Regulations, the same shall be decided by the Council.

The Council shall have the power to issue clarification to remove any doubt which may arise in regard to implementation of these Regulations.

(9) Power to relax

The Council may, in exceptional cases, for removal of any hardship or such other reasons to be recorded in writing, relax any of the provisions of these Regulations.
