The key note address on the “Preamble of Constitution of India” was presented by Dr. Anup Surendranath. He started his address by defining the meaning of Constitution, which helps us in achieving a balance that which way we should go in life, which is not an easy thing. Everyone in India does not have equal opportunity to get the merit. Today social media like twitter and facebook have become so strong and law has nothing to do with it. Speeches by various politicians are very tricky issues, which are threatening to our law and order and need to be handled with a lot of care. He also talked about the movies if the state government bans few controversial movies to avoid violence and a threshold must be set.
