

REPORT on Orientation Ceremony

eCell conducted an orientation for the upcoming batch enrolled in the academic year 2019-2020, in room no. 608 on 5th september 2019. Approximately 100 students of first year attended the event. The main highlight of the event was the talk on the culture of startups by the esteemed speaker for the day, Mr Ishaan Vohra.

The speaker, MrIshan Vohra is the co-founder of the Indie Corp, an app and web development startup, founded in 2016. He addressed students on the topic of the concept of startups and his journey of the foundation of his startup. He has worked with many clients till now and has recently launched VConnect, an app exclusively for the students of MSIT, providing them with the platform to interact with each other.

The difference begins at self, this message was pushed by the speaker and the eCell Team. The team conveyed the message to everyone present that every step, no matter how small matters. Any idea, no matter how small or big it is, must be nurtured and must solve a real-world problem. Even though one will have to face many challenges and failures, one must never give up.

The eCell team gave a brief introduction about the society like how it functions and what is the vision, events that are planned every year, the flagship event that is E-SUMMIT and many more things. The team guided the students how they can be a part of eCell and how being part of this society will be beneficial for them. It also announced the launch of Incubation Cell, the motive behind which is to help students implement their ideas and provide them with all the support required.

The doubts of each and every student, be it regarding eCell or startups or college in general, were clarified. The students were able to comfortably approach the team members with their queries. After the end of briefing, the students of all different branches interacted with each other, it was a good opportunity for them to be introduced to their peers followed by a fun and mind-boggling quiz. The event was concluded successfully at 2:00 P.M. on the same day.
