

Profile Building Workshop

A profile building workshop was conducted by the IEEE Computer Society on 12th February 2020 in Seminar hall number 06 from 12 p.m. to 2 p.m. The speaker, Mr. Sahil Khurana is an alumnus of MSIT, currently working as a Software Engineer at Karma Circles. He was previously a software engineering intern at FreshWorks and KarmaCircles. The audience comprised of 30 students, the majority of whom were 2nd-year students. The event was delayed due to the untimely conclusion of the previous event.

The speaker presented various ideas to enhance the resume and other tips and tricks to make the resume stand apart from the crowd. He talked about the key points which must be included in the resume, which would catch the eyes of the recruiter instantly. He presented a few sample resumes that included both good and bad resumes to exhibit the dos and don'ts. He also talked about how to approach your company via e-mail that is the structure of the beginning paragraph, the content and the concluding paragraph. After that, he encouraged all the students to build their LinkedIn profiles and maintain and update them regularly. He then told the audience about what should be included and how it should be included in your profile, how they should search for internships and connect to companies on LinkedIn. The session was interactive as the students asked their queries and were satisfied with the answers.

Steps to follow

- Choose that you prefer to complete
- Draft a detailed cover letter
- Draft a detailed resume
- Look for people in your network
- Start searching for new jobs
- Sending a nice introductory message
- They don't reply always your motivation
- Send them the cover + resume together
- They don't reply then you justify your motivation
