

Online Webinar on Equity & Inclusion

Date: 30.07.2021

On the completion of one year Transformative reforms under New Education Policy (NEP)-2020 proposed by government of India, The department of Applied Sciences (Jointly first and second shift), Maharaja Surajmal Institute of Technology, New Delhi has organized a Webinar on Equity & Inclusion on 30th July,2021 from 3:PM onwards. More than one hundred students and faculties attended and acquired valuable information.

Prof. A.K. Singh, the director of Maharaja Surajmal Institute of Technology, inaugurated the webinar by welcoming all the faculties and students and provided important information on the topic. Dr. Jindagi Kumari, Assistant Professor in Maharaja Surajmal Institute of Technology, delivered a talk on “Equity & Inclusion” as a collective goal. The high-lights of her speech rest on the accommodating people who have historically excluded because of their race, gender or ability. She also focused on all the initiatives of government under new education policy 2020. Innovative inclusions like Vidya-Parvesh , Indian Sign language, DIKSHA(Digital Infrastructure for school education), Nishtha (training program for middle school teachers), SAFAL, NDEAR, NETF would provide an equal opportunity and help in the direction of making India self-reliant.

She also emphasized on the benefits of NEP where multi-disciplinary programs, academic flexibility like multiple entry & exit, academic credit bank in order to promote each section of children whether rural or urban India. Summing up, she encouraged and enthused the students to promote the practice of equity and inclusion by their collective efforts.

Dr. Rashmi Gupta, Assistant Professor in Maharaja Surajmal Institute of Technology, pointed out all the revolutionary changes unfolded by hon’ble Prime Minister on the occasion of completion of one year transformative reforms under new education policy 2021 on 29th July, 2021.

The webinar culminated with a vote of thanks by Prof. Man Singh Beniwal, head of the department of Applied Sciences (First Shift). The program was successfully concluded with the cordial support of Dr. Sobinder Singh, head of the department of Applied Sciences (second Shift).
