

Webinar on “Hands on Session- VLSI Front End”

Date: 25th December, 2021

Timings: 10:30 AM – 1 PM

Conducted By: Department of ECE (2nd Shift)

ECE Department, 2nd Shift in association with Pine Training Academy of New Delhi organized a Webinar for students in MSIT on '**Hands on Session- VLSI Front End**' on 25th December, 2021. The Speaker for the session was **Mr. Vaibhav Mishra** (CEO Pine training Academy).

The session focussed on how to get placed in core electronics Companies. The ideas and experiences he shared in the workshop have helped students in many ways. The workshop emphasized upon, what is VLSI? How can students start to achieve their aim in the corresponding domain? What are the different options in the VLSI domain? What tools are the industry standards? What are the prerequisite and requirements before entering the core electronics domain? And how and where students should start. All of these questions were covered in the webinar. He taught about Xilinx ISE 14.7, how it works and gave the students knowledge about how to code and also taught about the basics of digital electronics. He also gave students a chance to ask their queries to the already placed student of MSIT in the field about the career options and opportunities. In the workshop he defined the different career options and the ways by which students can achieve them. It was a very nice and fruitful experience for the students of ECE with the speaker.
