

SIH 2022- 1st Prize Winner Team Empathetic Coders

Smart India Hackathon, organised by AICTE, MoE. A firm podium to speak out your talent to pressing societal problems being a nationwide initiative and, challenge and boost to youth's problem solving mindset. SIH can be categorised into level of its own by title holder of Asia's largest hackathon with more than 3,00,000 applicants.

Team - "Empathetic coders" from Maharaja Surajmal Institute of Technology, Delhi, emerged victorious by steady hard work of Monalika Kapoor(Team Leader), Nihal Gupta (Backend Developer), Muskaan Gupta (Frontend Developer), Gautam Garg (Frontend Developer), Khushiyant (ML Developer) and Soumya Chaudhary (Graphic Designer) who were mentored by Rakshit Satija (Founder of Skyware) and Ankush Garg (SDE at Zeta) under the guidance of Dr. Poonam as College SPOC for the event. College Team underwent a 36-hours long sleepless hackathon which started on 25 August 2022, testing the limits of every participants of 30 teams in nodal centre of PSR Engineering College, Sivakasi, Tamil Nadu.

"Empathetic Coders", registered for problem statement regarding AI/ML based career guidance tools, proposed by DoSEL, NDEAR for providing an ease in access to guidance for student community. This is where "Empathetic Coders" outshined others by developing an integrated and robust web application following industry standards and latest technologies like Machine Learning and Deep Learning, while maintaining good share of features and simplicity with final aim to provide a one stop platform for proper career guidance and mentorship.
