13th December 2022

Introduction to Machine Learning

The department of Computer Science and Engineering on 13th December 2022 in seminar hall 406, organized a workshop on "Introduction to Machine Learning".

The guest speaker for the workshop was **Mr. Atul Dhingra**, Engineering Manager at Standard AI, USA. The expert has a combined experience of over 10 years in industry and working on advanced Machine Learning and Deep Learning algorithms to solve complex problems in Autonomous vehicles, Biometrics. He has played a key role in building large scale cutting-edge machine learning production system.

Mr. Atul enlightened the attendees with information regarding ML, the need for ML, the potential of ML in the future, the importance of data in ML and shed some light on Neural Networks. He also taught us how to train an ML model and how can one get started in the field of Machine Learning.

In the end various queries of students were addressed. The workshop was engaging, effective and was attended by more than 100 students.
