Report

Seminar on “Role of Communication in Career”

The Department of Electrical and Electronics Engineering organized a seminar titled "**Role of Communication in Career**" in collaboration with NASSCOM. The seminar was organized by Dr.Rakhi Kamra(Asst. Prof., EEE Dept.) and Ms. Neha (Asst. Prof., ECE Dept.).**The seminar was held on 20th September 2024 at Seminar Hall 206, MSIT, from 12:30 PM to 2:30 PM.** The guests of the day were :**Ms. Shreya Chakrobarty**- a leader with 15 years of distinguished experience in Big4 Consulting, Technology, and Fintech industries. **Ms. Sakshi Shukla**- Company Secretary in Ciena with 4 years of experience. **Ms.Jaanhavi Chaturvedi**- Program Executive at NASSCOM foundation **Mr.Akhilesh Jha**- Program Executive at NASSCOM foundation.Ms. Shreya Chakraborty, an accomplished professional and expert in communication skills, was invited as the guest speaker. The seminar was aimed at highlighting the significance of communication skills for students aspiring to excel in their professional careers.

NASSCOM, represents the voice of India’s \$254 billion technology industry. NASSCOM is dedicated to making India the global hub of innovation and IT services, with a strong focus on creating human-centric technology that enriches people’s lives. With a diverse and influential community of over 3,000 member companies, NASSCOM spans the entire spectrum of the industry. She delivered an insightful talk on the importance of communication in the workplace, particularly in the context of engineering and technology careers.The session covered a range of topics, including: - The role of communication skills in career progression - Balancing technical expertise with interpersonal skills - Effective ways to communicate in professional settings Ms. Chakraborty’s presentation was well-structured and included real-world examples, making it highly engaging for the attendees.

The seminar was organized by attended by approximately 80-90 students from the 2nd and 3rd year of the ECE and EEE departments. The students were keen participants, actively engaging in discussions and posing questions during the interactive Q&A sessionThe team shared their insights on the essential balance between technical and communication skills, which is crucial for the holistic development of engineering professionals. Their participation greatly enhanced the depth and quality of the session. The seminar successfully met its objectives of raising awareness about the importance of communication skills in career development. The students gained valuable insights, and their feedback indicated a strong appreciation for the content delivered. Special thanks were extended to Prof. Neeru Rathee (HOD ECE Dept.),Prof.Dr.Meena Tushir(HOD,EEE Dept.) and Prof. Pradeep Sangwan(HOD ECE evening Dept.) under whose guidance the event became successful.
