CSE-M College Feedback Analysis 2025

Academics Related

Suggestion/Comment	Action Taken
Increase tech related societies with the aim of development and coding skills. Aim should be to participate in ICPC, open source contributions, participating in GSOC.	Steps are being taken to enhance the presence and activities of tech-focused clubs on campus. Plans include organizing regular workshops, coding competitions, and mentorship programs aimed at preparing students for events such as ICPC, contributing to open-source platforms, and participating in programs like GSoC. Faculty support and resources will be extended to encourage student-led initiatives in this direction.
More seminars related to new generation Technology by industry professional	To address this, the institution is planning to organize more seminars, workshops, and guest lectures featuring industry experts. These sessions will focus on next-generation technologies such as AI, Blockchain, Cloud Computing, and IoT. The objective is to enhance students' understanding of current industry trends and bridge the gap between academic knowledge and practical application.

Infrastructure related

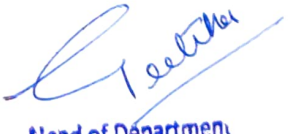

Suggestion/Comment	Action Taken
Enhance classroom facilities by incorporating smart class infrastructure to improve the quality of teaching and learning.	Projectors have already been installed in all classrooms to enhance the learning experience.
AC and WiFi should be installed	Regarding facilities such as air conditioning and Wi-Fi, concerns have been communicated to the management for further consideration and action. College management is committed to providing a modern, comfortable learning environment
College should improve the Industrial training and summer training opportunities.	The college provides in-house training opportunities that allow students to gain practical knowledge and experience relevant to their field of study. These training programs are designed to bridge the gap between theoretical learning and industry requirements.

Placement Related

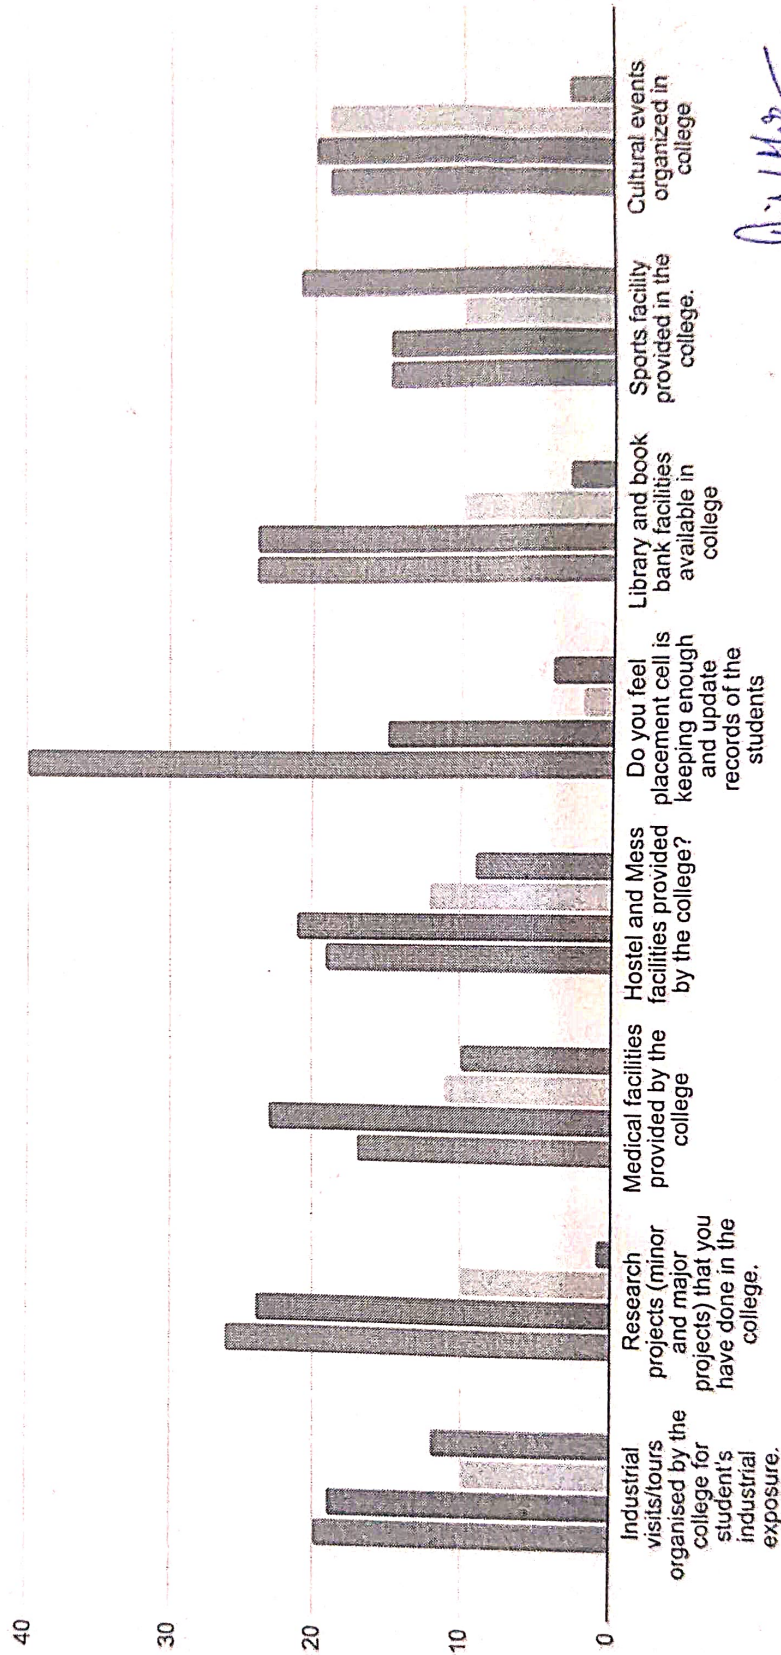

Suggestion/Comment	Action Taken
No one follows 30% criteria, every placed student sit in multiple companies, the information about the drive, test and interview received late sometimes and major one there is no college app for placement, so my suggestion is improve placement management and build an app for good placement management.	To ensure fair opportunities, stricter enforcement of the 30% placement criteria will be implemented during upcoming drives. Additionally, efforts are underway to streamline communication regarding placement drives, tests, and interviews through more timely notifications via official channels. Recognizing the need for better coordination, we are also exploring the development of a dedicated college placement app. This platform will aim to centralize all placement-related updates, registration processes, and notifications, making the entire system more transparent and efficient for students.
Provide more placement opportunities to students	College actively works to provide a variety of both technical and non-technical roles through its placement drives. For more details on the current opportunities available, you can refer to our dedicated placement page here: https://msit.in/placements
Others	
Suggestion/Comment	Action Taken
Remove the 75 percentage attendance criteria	The 75% attendance rule is in place to ensure that students engage fully with their courses and gain the most from their academic experience. This policy aligns with the university's guidelines and aims to promote discipline and consistent learning.

Action taken by the department based on suggestions/ comments given by the students of Batch 2021-25:

S. No.	Comments/ Suggestions	Action Taken
1.	Industrial Exposure to the students	<p>The institute organizes the industrial visits and seminars every semester to impart knowledge apart from the academic syllabus. Mock interviews are also conducted to provide exposure to the industry trends and market demands for employment.</p> <p>We have planned to increase the number of industrial visits for industrial exposure to the students.</p> <p>We have also conducted and planned events for third year students with senior placed students and alumni for better preparation of their placements.</p>
2.	Sports Facility	<p>Annual sports day is conducted every year at the institute. We also encourage our students to participate in sports events at university level and other colleges for their all-round development.</p>

Suggestion and Action Taken on College Feedback given by Students

S. No.	Suggestions	Action Taken
1.	Saturday Should be off.	Informed to Higher Authorities
2.	There is need of curriculum upgradation according to the Industry Standard.	University is already in the process of syllabus upgradation (2021 onwards).
3.	Increase the Technical Societies in college.	There are already Technical Societies in institute i.e. IEEE, IIC, Software Development Cell, Placement Cell, E-Cell, TechSoc, Innovation Cell. Institute conduct Two days Technical Fest-"AVENSIS" every year which is totally organized by Students under the mentoring of Faculty Members.
4.	AC in classrooms, clean washroom	College has already started the AC purchase process.
5.	Enhancement is required in practical aspect according to new technologies i.e. Python, Machine Learning etc.	University is already in the process of syllabus upgradation (2021 onwards).
6.	More companies with IT IT-specific roles should visit the campus.	Informed to Placement cell.
7.	Provide more sports, cultural and Technical activities.	There are already in-door and out-door activities i.e. Carom Board, Chess, TT, Cricket Football, Badminton, Volleyball. Most of the equipment for the sports are provided by the college.

1.	IT-2 nd Shift	AC and WiFi should be installed	Regarding facilities such as air conditioning and Wi-Fi, concerns have been communicated to the management for further consideration and action. College management is committed to providing a modern, comfortable learning environment
2.		library facility is best but books of book bank many time outdated according to new syllabus so update them.	Faculty regularly updates the book bank in line with the current syllabus every semester. This ensures that students have access to the most relevant and up-to-date materials for their studies. Mostly books available are recommended by university syllabus as text book or reference book
3.		Would be great to see more technical roles rather than non technical for the computer science branch	College actively works to provide a variety of both technical and non-technical roles through its placement drives. For more details on the current opportunities available, you can refer to our dedicated placement page here: https://msit.in/placements
4.		Provide placement to students	College actively works to provide a variety of both technical and non-technical roles through its placement drives. For more details on the current opportunities available, you can refer to our dedicated placement page here: https://msit.in/placements

Suggestions and Action taken on College feedback by Students (2024-25)

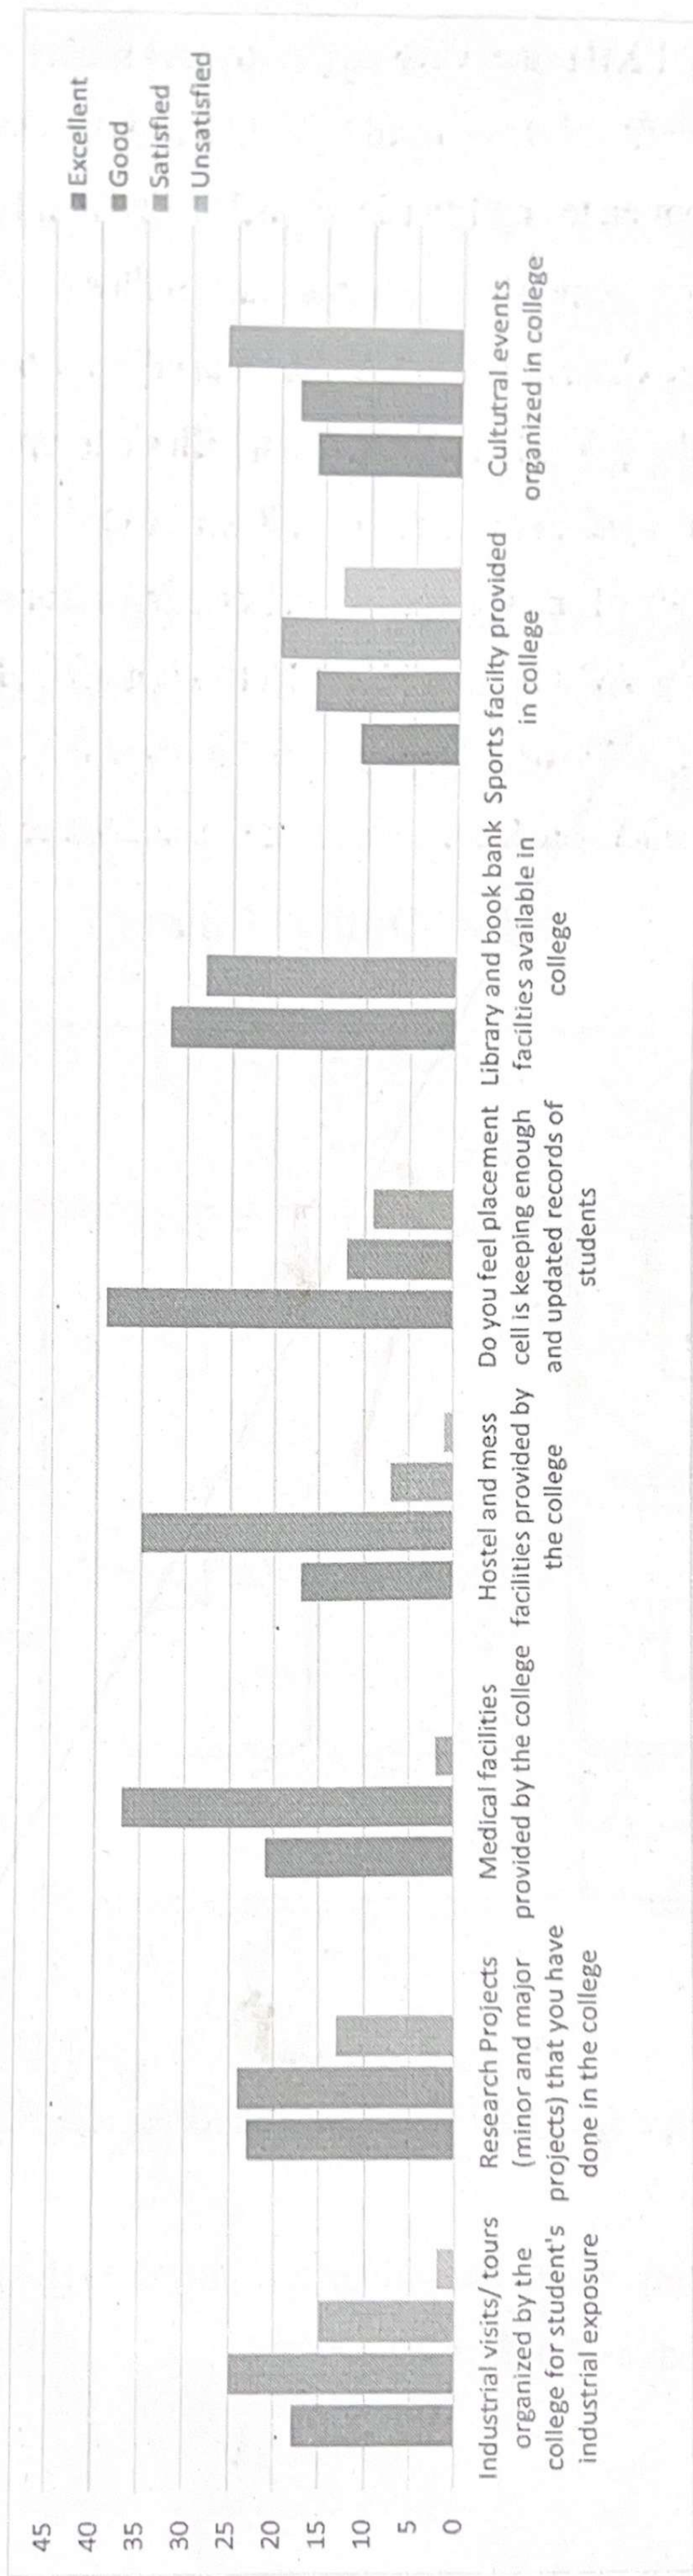

S.No	Suggestions	Action Taken
1	There should be more industrial visits for students	An outreach Committee has been constituted and number of visits to various programmes have been increased.
2	Medical facilities should be improved	More Medications have been kept in all the departments. A psychologist has been hired for mental health support.
3	Information Provided was found unsatisfactory	Information is disseminated through notice boards, official WhatsApp groups, and verbal communication by senior faculty members. Attendance-related information is shared with proper signatures, and mentors are instructed to ensure timely communication and follow-up. Previous year question paper and assignment along with lab experiment manual are available on college website.
4	Sports facility provided in the college	There are already in-door & out-door sports facility like Table Tennis, Football, Badminton and Cricket. In addition, there are separate Girls and common room. However, recommendation will be given for adding more facility
5	Internet facilities should be improved	Institute has a dedicated 600 MBPS internet connectivity now and all the labs have been provided this fast speed internet
6	Hostel and mess facilities provided by the college is not satisfactory	New vendor has been appointed for canteen and mess and renovated. Quality has been improved and new menu has been adopted according to students' requirement

Suggestions and Action taken on college feedback by students (2024-25)

S.No	Suggestions	Action Taken
1	There should be more sports facilities	The college already provides sports grounds and basic indoor facilities. However, efforts are being made to enhance student engagement.
2	Increase industrial visits and exposure opportunities	Regular industrial tours and guest lectures are already conducted, and the college plans to increase the frequency.
3	Improve hostel and mess facilities	The hostel and mess services are functioning well, but quality checks and menu variety will be further improved based on student feedback.
4	encourage more cultural and extracurricular events	Cultural events are organized annually with good student participation, and the college aims to expand these activities with more inter-college events and workshops.

Unsatisfied	0	0	3	0	5	0	0	10	5	4

EEE -College Feedback Analysis 2025

Analysis

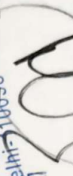

1. Needs improvement in sports facility. Students must be allowed to use sports ground for playing during their free slots.
2. Canteen facility needs improvement.
3. Medical facility needs improvement.
4. The submission deadlines for library books should be extended.

5. WI-FI facility should be provided.
6. AC's must be installed in classrooms.
7. The institute should facilitate summer training/ Internship programs.

Action Taken

1. The director has been apprised of the need to enhance sports, canteen, WI-FI, AC and medical facilities.
2. The librarian has been notified about the request to extend library book submission deadlines.
3. The Industry-Institute Cell is actively operational in the institute, consistently working to secure internship opportunities for students.
