Report on Expert Talk

Student Awareness about Generative AI

Date: 17/04/26

Venue: Seminar Hall

Organized by: ECE Department

Faculty Coordinators: Prof. Dr. Archana Balyan and Ms. Vishakha Tomar

Participants: Second Year Students (Around 85 Students Attended)

On 17th April 2026, the Department of Electronics and Communication Engineering (ECE) organized an expert talk on “Student Awareness about Generative AI” for second-year students. The session aimed to provide students with knowledge about the rapidly growing field of Generative Artificial Intelligence and its influence on academics, industry, and future technologies.

During the session, students were introduced to the basic concepts of Generative AI, including its applications in content creation, automation, education, healthcare, communication systems, and software development. The speaker discussed the growing importance of AI tools and highlighted how these technologies are transforming various sectors globally.

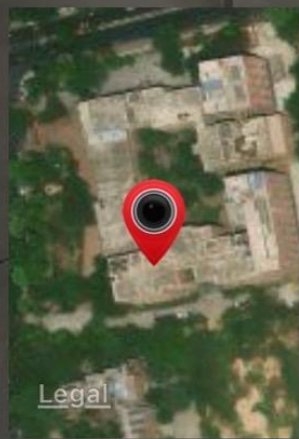

The session also focused on the ethical and responsible use of Artificial Intelligence. Students were made aware of the opportunities and challenges associated with Generative AI, including issues related to data privacy, misinformation, and dependency on AI-generated content.

An interactive discussion session was conducted where students actively participated by asking questions and sharing their views regarding the future scope of Artificial Intelligence. The expert encouraged students to explore AI technologies for innovation, learning, and research purposes.

The expert talk proved to be highly informative and beneficial for all participants. It successfully enhanced students’ awareness and understanding of Generative AI and motivated them to stay updated with emerging technological advancements.
